EXPERIENCE

Website Developer Freelance

Gokoo

07/2023 - Present Montreal, QC

Led web design, development (**React**, **Webflow**, **Framer**), and client follow-ups.

- Led **end-to-end** design and development of multiple websites for diverse national and international clients, tailored to their specific goals and requirement.
- Leveraged CMS platforms (Webflow, Framer, Shopify) and React to deliver high-quality design and development within tight deadlines, overcoming CMS customization and rendering challenges.
- Collaborated with clients, offering insights that adhered to contemporary web design standards, resulting in a user-friendly and vibrant platform.
- Achieved a successful platform launch and secured their first customer shortly thereafter.

React Front-end Developer Intern

Nuance Communications

01/2022 - 04/2022 Montreal, QC

Gained practical experience in front-end development (**React**, **Typescript**).

- Developed reusable front-end components using React and TypeScript.
- Contributed to Nuance's **UI component library** by integrating components into Storybook.
- Implemented interactive React components, applying lifecycle methods and state management.
- Created a comprehensive **design library** in Storybook for colors, typography, spacing, and shadows.
- Customized Storybook's theme using the Storybook theme API and CSS escape hatches to match the company's brand colors.

Mobile Developer Intern

Sun Life Canada

05/2021 - 08/2021 Montreal, QC

Gained valuable **R&D** experience in **iOS** and **Android** mobile development.

- Engaged in **5+** proof-of-concept projects to enhance the Sun Life mobile app for iOS and Android, including UI/UX enhancements, CarPlay support, and mobile navigation developments.
- Utilized Xcode and Android Studio as development platforms, employing **Java**, **Kotlin**, and **Swift** as the programming languages.
- Contributed to R&D projects to bolster mobile security and digital strategy. Notably, one project on Adaptive Authentication involved presenting key findings to stakeholders and gaining approval for a future proof of concept.
- Upheld code reliability within the Sun Life mobile app through rigorous testing using the **Espresso** framework.

Android Developer Intern

Sun Life Canada

09/2020 - 12/2020 Montreal, QC

Attained expertise in both **research** and **production** aspects of **Android** mobile development.

- Worked closely with the production team to create new UI features for the Lumino Health mobile app on the Android platform.
- Engaged in **2+** proof-of-concept projects concentrated on enhancing UI/UX for the Sun Life mobile app on Android.
- Utilized Android Studio as the development environment, alongside **Java** and **Kotlin** as programming languages.
- Conducted thorough UI testing utilizing the **Espresso** testing framework to guarantee the reliability of the Sun Life mobile app on the Android platform.

EDUCATION

Bachelor's Degree in Computer Science

Concordia University

09/2019 - 12/2022 Montreal, QC

- Member of the Institute for Cooperative Education (Co-op).
- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, System Hardware, Database, Computer Networks, and Enterprise Web Applications

ACHIEVEMENTS

Launched Startup Website

Directed and launched end-to-end design and development with a **30%** sales increase.

Gokoo.ca

My Portfolio

A first launched portfolio created with React, Tailwind CSS, and GSAP. Utilized Vite as a build tool.
